# ENERGY SOLUTIONS

**At Silverstone we partner with our clients to develop solutions to their energy needs. We believe the energy sector needs to evolve and are actively working to enable the energy transition.**

While Silverstone has its roots in power generation technology, we are incorporating renewables and other future facing emission free alternatives such as hydrogen into our solutions. Silverstone is helping clients manage the shift to renewable energy by providing back-up baseload power, enhancing the efficiency of existing fossil fuel generation, and helping build less carbon intense projects.

## Power Solutions:

Short/Mid-Term – containerised mobile fleet of power generation, BESS, Substations, and hybrid energy storage systems for rent.

Long-Term – 10–20-year purchase power agreement with solutions that can be tailored to suit our client’s renewable penetration and alternative fuel needs.

# MAINTENANCE SOLUTIONS

Your maintenance and service requirements are a priority for Silverstone with an ability to support mobile plant and infrastructure maintenance 24 hours a day.

Silverstone has been a trusted name providing resources in WA for the past 5 years, now with our expanding fleet of services vehicles and service trucks we can assist with your problems on site.

Our service extends beyond sourcing labour by supplying parts, carrying out rebuilds, breakdown management and onsite support. Silverstone can provide parts and maintenance to all mining services divisions.

# OUR CORE VALUES

## **Safety**

We believe the health and safety of our employees, contractors and visitors to our operations is paramount. We are consistently working on improving our systems and processes to track, educate and improve our performance with the aim of achieving a Zero Harm work environment. At Silverstone, we believe everyone deserves to go home safely.

## **Service**

We value having a dynamic workforce that embody our values in order to achieve our vision. We commit to providing our clients with quality services that are reliable, innovative, solution and results focused. Being customer-obsessed and service-minded translates to a high-end, quality experience for our clients. We want the Silverstone Standard to be synonymous with the best in the industry.

## **Excellence**

Our passion to provide the highest standard of service to our clients and people is what sets us apart from our competitors. Our key driver is helping our customers succeed through providing expertise or services to meet their business needs. We pride ourselves in living and breathing the Silverstone Standard of service to our clients, our community, and our team.

## **Partnership**

We believe in relationships based on trust, commitment, mutual benefit and achieve shared outcomes. We are dedicated to ensuring that we keep our promises, deliver what we say we will and do it in the safest way possible.

## **Innovation**

We have an open culture that nurtures innovation and allows our people the space to find new solutions to old problems while taking calculated risks. We encourage our team to challenge the norm to better meet the needs of our people, our business, and our clients alike.
