ABOUT THE PROJECT

Silverstone was tasked with the design, supply, installation, and commissioning of a 2MVA power station in the Pilbara region. The project was successfully carried out by Silverstone's in-house team of engineers and trades, ensuring safety, timely completion, and adherence to the budget. Silverstone's sustainable energy solutions stand out in the industry for their top-tier reliability and fuel efficiency. As a vertically integrated energy business, Silverstone manages turnkey projects comprehensively, serving as a one-stop shop from project initiation to completion

SCOPE

- ◆ 4 x 500kva Synchronised Generators.
- ◆ 1 x 30,000 lts fuel tank
- ◆ 1 x Motor Control Centre
- ◆ 1 x Service container
- ◆ Full set of cables, fuel piping and cable ladder
- ◆ Earth grid
- ◆ Civil and Earthworks for level pad
- ◆ Onsite lighting
