

MRL ONSLOW SURVEY

ABOUT THE PROJECT

Our Silverstone Surveying Department is well underway in helping one of our valued clients deliver one of Australia's largest iron ore projects currently under development. With a wide range of surveying services which includes SMP, Bridge Construction, Panel Erection, Road and Civil works we've managed to help the client deliver Ore well ahead of schedule. With a clear focus on the Silverstone Values, including Safety and Quality, this project has been a major success for our company.
