## ABOUT THE PROJECT

Silverstone successfully completed this project for a well-known mining company in the Pilbara. Our Scope incorporated Survey, Mechanical, Electrical, Civil, Piping works and Maintenance works. The Project included working inside high-risk areas where we integrated and worked seamlessly alongside major EPCM projects. Silverstone exceeded our client's expectations by completing the project safely, on time and within agreed budgets.

## SCOPE

- ◆ Site Survey-Initial Survey Set-out, Survey Control, Construction throughout & As-Built Survey
- ◆ 30km Clearing, Grubbing, LV/HV Crossings, Topsoil Strip, Stockpiling, Earth mounds
